Subject: MLPAComments: My Input on the Central Coast MPA Packages

Dear Chairman Isenberg:

As a California resident, tax payer and outdoor user, protection of the coast and ocean is personally important to me and to my family. I have been following the MLPA developments in the Central Coast because I value the health of the ocean and want to help make sure it is protected for future generations to use and enjoy.

I am not however in favour of Package 2.  
This area is used by the K38 Water Safety people for certifying life savers which would be an insurmountable loss. Katrina was a very good indication of what they can do to help us and Sacramento is the next most vulnerable city.

Please consider the loss for all of us should K38 have difficulties performing their work.

Sincerely,

Alec Chattaway
